REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance:

The Examiner agrees with Applicant's remarks, specifically:

"The independent claims, as amended, recite that each arm defines a substantially cantilever beam structure. This feature is clearly supported at paragraph (0020) and FIG. 5 of the specification. If the "arms" of Matsumoto are the portions between the holes 11 in the wheel 1, the "arms" do not define cantilever beam structures since both ends of each "arm" are supported (e.g., by the outer and inner periphery of the wheel 1).

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
